OFFICE OF THE CONSERVATOR OF FORESTS
IN MYSORE,

No. 3425/8

Dated Bangalore the, ... 1920.

From

H.C.Rama Rao, Esquire, B.A.,
Conservator of Forests in Mysore,
B A N G A L O R E.

To

B.Ramaswamaiya, Esquire, B.A., B.L.,
Secretary to the Government of H.H. the
Maharaja of Mysore, Revenue Department

Sir,

Adverting to Government Order No. R.13167-8/Ft. 197-19-2 -dated 20th May 1920, regarding the deputation of an officer to Maihar to study the methods of lac cultivation obtaining there, I have the honour to state that Mr. M.Basappa, B.A., Ranger, V Grade on Rs. 70/- who is a Physical Science Graduate of the Madras University has been ordered, in anticipation of sanction, to proceed immediately to Maihar where he is required to be present on 1st July. I request that my action may be ratified.

2. The daily allowance admissible to him under the rules published in Government Order No. 1006-1052/C.B.109-18-1 dated 1st March 1919 is hardly sufficient for a decent living in a foreign place. I therefore beg to recommend that under clause (b) of rule 3 of the above rules, he be given a special deputation allowance of Rs. 50/- per mensem during his stay there which will last over two crop seasons (i.e.) from 1st July to 1st January 1921

I have the honour to be, Sir,
Your most obedient servant,

Conservator of Forests.

M.G.Rama Rao, Esquire, B.A.

Conservator of Forests in Mysore,

B A N G A L O R E.

To

B.Ramaswamaiya, Esquire, B.A., B.L.,

Secretary to the Government of H.H. the

Maharaja of Mysore, Revenue Department.

S i r,

In continuation of my letter No. R.O.C. 32/H dated 22nd June last, reporting that Mr. M.Basappa, B.A., Ranger V Grade has been deputed to Maihar to study the methods of lac cultivation obtaining there, I have the honour to submit herewith, copy of letter dated the 24th instant from the Eastern States of Central India Export Trust Co., Ltd., Maihar, and to state that under the circumstances mentioned therein, sanction may be accorded to depute Mr. Basappa to Mirzapur and Pusa to enable him to study the lac industry in all aspects.

I have the honour to be,

Sir,

Your most obedient servant,

Conservator of Forests.

Copy of letter dated the 24th July 1920, from the Managing Director, Esociet, Maihar, to the Conservator of Forests in Mysore.

Mr. M. Basappa, the Officer deputed by you, came here on the 27th ultimo. I was then away from the station and returned to head-quarters on the evening of the 28th. He met me the very morning and we had a talk on the subject. He called on me again the following morning when, after further discussing the subject with him, I sent him to Damoh C.P. with a note to our agent there with instructions to take him to the Forests and show him the methods of collecting and propagating lac. But unfortunately, the work of the collect-ion was over by the time the agent took him to the Forest. However, your officer spent several days in going over the forests with our agent and he was shown how the work of collec-tion etc., was being conducted; after this, he returned to Demoh and spent his time in reading some literature on the subject and in daily observing the changes in the specimens of Broodlac sticks of the several species of trees he had brought with him from the forest. Then, he was, again, taken to another part of the forest to see how the work of propagation was done.

Now, he has come back to our head quarters at Maihar. I am having talks with him and am meeting his difficulties. He has formed a clear idea of the methods of our works. I think, it will be better, if he would acquaint himself not merely with the forest aspect of the work only, but after having come so far, he should gain some insight into the market conditions the industrial aspect regarding the washing of lac and the manufacture of Shellac - the form in which it is exported to Europe etc; and lastly, a biological study of the lac insect and its enemies, as from a mere abstract study of the subject, the ideas formed may not be clear and exact.

At present, we have no facilities here for studying either the industrial or biological aspect of the question. If you so desire, I will give him letters of introduction and accredit him with our agents and customers at Mirzapur where he can study the actual manufacture and I will also give him a note of introduction to the Assistant Imperial Entomologist at Pusa, where he can study the Biological aspect of the question.

So far, I am pleased with the keenness and interest dis-played by Mr. Basappa in the study of this subject. He has made some careful observations.

Until I hear from you, I have asked him to stay here.

Conservator of Forests.
